

TONI&GUY · BENGALURU

Two salons. Two markets. One standard.

Launch strategy for TONI&GUY at Sobha Arcadia, Thanisandra
and Prestige Tech Forest, Varthur.

Prepared by Daniel Deepak · 10 October 2026

Concept build. Photography is licensed stock until the launch shoot.

HOW TO READ THIS

Every claim wears a label.

VERIFIED Checked in a source we name. Google Maps data is a sample taken 10 October 2026.

INFERENCE Our reading of verified facts. Could be wrong. We say why.

RECOMMENDATION What we would do.

CONCEPT A design idea or preview. Not a prediction, not a result.

No ratings, reviews, staff or results are invented. Where we do not know, we say so and list it as an open question.

01

Findings

Market audit, assumptions, what we do about it

02

Positioning and site

Royal, premium, built for people who invest in themselves

03

Local search

Google profiles, keywords, schema, citations

04

Growth and AI

Content, paid launch, AI where it earns its place

05

Measurement

Analytics, KPIs, performance and access

06

The plan

90 days, risks, first ten days, sources

EXECUTIVE SUMMARY

Win the two neighbourhoods on trust, not on price.

57

salon listings audited within 3.3 km of the two sites. **VERIFIED**

4

existing TONI&GUY outlets within 2 km of the two sites. **VERIFIED**

11

of those 57 listings show an online booking link. **VERIFIED**

1.7

stars on the Prestige Tech Forest campus listing, 126 ratings. **VERIFIED**

THE MARKET

Ratings are crowded at the top, so stars cannot separate us. Depth of reviews, a named stylist and a clear booking path can.

THE RISK

Both sites sit close to existing outlets. Franchise territory and cannibalisation need an answer from the franchisor before launch spend.

THE MOVE

Two separate Google profiles and two separate stories. One site that feels like a private members' salon and routes every booking into the franchisor's system.

01 · FINDINGS

Six things the audit says.

1

Stars are table stakes.

VERIFIED 19 of 29 listings near Sobha Arcadia and 8 of 28 near Tech Forest are rated 4.8 or higher.

2

Review depth is the moat.

VERIFIED Median review count is 196 near Arcadia and 237 near Tech Forest. Nearby TONI&GUY outlets hold 570 and 2,447.

3

Booking is a gap.

VERIFIED 8 of 29 and 3 of 28 listings show a booking link. A clear book button is a real edge.

4

Existing outlets are close.

VERIFIED TONI&GUY Chokkanahalli is 0.85 km and Bhartiya Mall 1.21 km from Arcadia. Gunjur is 1.95 km and Balagere 2.0 km from Tech Forest.

5

Campus footfall is uncertain.

INFERENCE Sources disagree: possession June 2027 in one, built 2025 in another. The campus listing is 1.7 stars.

6

Arcadia has no salon profile yet.

VERIFIED The Google pin at 3JGM+PM is a shopping-mall listing, 3.6 stars from 8 ratings, with no hours. Ours must be created clean.

CHALLENGED

Five assumptions we did not accept.

ASSUMPTION

WHAT WE FOUND AND WHAT CHANGES

Premium means more stars.	Everyone near us is already 4.8. Premium shows in the consultation, the stylist and how easy it is to book.
The campus is a built-in client base.	Occupancy is unclear and the listing is 1.7 stars. The lever is the lunch hour and early slots, not a headcount.
A film of the salon will sell it.	The salons are not shot yet. The hero uses licensed stock, labelled, until a launch shoot replaces it.
The website will fix booking.	The franchisor mandates the booking system. The site must hand over into it, not replace it.
Use AI everywhere.	AI only where the customer gets something: colour preview and stylist matching. Nothing else.

THANISANDRA · 560064

Sobha Arcadia

"A proper salon, minutes from home."

For households in the Sobha City and Hegde Nagar pocket. Gentlemen's monthly cut and beard, family chairs, colour, function season. Evenings and weekends first.

VARTHUR · 560087

Prestige Tech Forest

"Sharp before the first meeting."

For campus teams and Varthur and Whitefield residents. The executive cut, beard and grooming, blow-dry, colour touch-ups. Early and late hours first.

02 • MARKET MAP

Sobha Arcadia

A dense, high-rated neighbourhood market. Salons sit within 400 m of the pin.

8 19 29

listings within 1 km

within 2 km

audited

● TONI&GUY ● shows booking link ○ no link

Bubble size is review count. **VERIFIED** Google Maps sample, 10 Oct 2026. Rings are straight-line km.

Nearest six listings are all independents rated 4.2 to 4.9. **VERIFIED**

Two TONI&GUY outlets, 0.85 km and 1.21 km away, carry 570 and 2,447 reviews. **VERIFIED**

Implication: win on convenience, family and a consultation, not on being new. **RECOMMENDATION**

02 • MARKET MAP

Prestige Tech Forest

A thinner market. Fewer salons within 1 km, none on the campus. The village cluster sits 1.7 to 2.3 km south.

4 listings within 1 km **22** within 2 km **28** audited

● TONI&GUY ● shows booking link ○ no link

Bubble size is review count. **VERIFIED** Google Maps sample, 10 Oct 2026. Rings are straight-line km.

Only 4 listings sit within 1 km. 22 are within 2 km.

VERIFIED

Ratings are lower: 8 of 28 are 4.8 or higher, against 19 of 29 at Arcadia. **VERIFIED**

Implication: space for a clearly better, faster, easier-to-book option. **RECOMMENDATION**

02 · REPUTATION

Stars are even. Review depth is not.

Each dot is a nearby salon. Gold is TONI&GUY. Filled dots show a booking link.

VERIFIED

AROUND SOBHA ARCADIA

AROUND PRESTIGE TECH FOREST

INFERENCE A new salon starts at zero on the same chart. The top-left is not where we start; the top-right is where we are heading. Source: Google Maps sample, 10 Oct 2026.

02 · BOOKING

Most listings make you phone.

Only 8 of 29 salons near Arcadia and 3 of 28 near Tech Forest show a booking link on their Google listing. **VERIFIED**

RECOMMENDATION Put a working Book button on both profiles on day one, pointing to the franchisor’s system with tracking attached.

SHARE OF LISTINGS WITH A BOOKING LINK

LISTINGS BY DISTANCE FROM EACH SITE

	UNDER 1 KM	1 TO 2 KM	2 TO 3.3 KM
Sobha Arcadia	8	11	10
Prestige Tech Forest	4	18	6

Booking link means a Book or Reserve button on the Google listing, checked 10 Oct 2026. Tech Forest has 28 audited listings out to 5.4 km.

02 · TERRITORY

Four outlets already sit near us.

OUTLET	NEAR	KM	RATING	REVIEWS
TONI&GUY Chokkanahalli	Sobha Arcadia	0.85	4.8	570
TONI&GUY Bhartiya Mall of Bengaluru	Sobha Arcadia	1.21	4.8	2,447
TONI&GUY Gunjur	Prestige Tech Forest	1.95	4.5	736
TONI&GUY Balagere	Prestige Tech Forest	2.0	4.6	276

VERIFIED Google Maps, 10 October 2026. Straight-line distance from each new site's pin.

INFERENCE A client at Arcadia can reach two existing TONI&GUY outlets in under 15 minutes. Without a clear reason to choose the new salon, we split the same customer.

ASK THE FRANCHISOR, BEFORE SPEND

- Is there exclusive territory for either site?
- Can the new salons use the existing outlets' Google reviews or name?
- Who owns the Google profile: franchisee or brand?
- Which booking system and which API or link can the site use?
- Are paid ads and local SEO pages allowed per outlet?
- Are the outlets' price list and menu fixed?

RECOMMENDATION Get the answers in writing in week 1. Several later decisions depend on them.

02 · REVIEWS

The quiet work: four reviews a week.

The median salon around each site has about 200 reviews. At four a week, a new profile reaches that in a year. **INFERENCE**

THE RULES

- Ask every client, after the service, in person and by WhatsApp.
- No gating. Everyone gets the same link. Gated review requests breach Google's policy.
- No incentives for reviews.
- Reply to every review in two days.

REVIEWS ON ONE PROFILE, BY PACE, OVER 52 WEEKS

CONCEPT Arithmetic, not a forecast. Pace depends on footfall and how consistently the front desk asks.

02 · GAPS TO FEATURES

What competitors miss, and what we build.

GAP IN THE AUDIT	WHAT WE BUILD	AREA
Few listings have a booking link	Reserve button on both profiles; seven-step booking that hands to the franchisor system	Booking
Photos on most sites are generic or missing hair detail	Photo shoot in week 2: real chairs, real stylists, hands and hair close up	Brand
No competitor shows a stylist with a specialty	Find your stylist: seven archetypes, matched by what you want	Trust
Prices and time are rarely stated	Every service page states time, upkeep and what to expect	Clarity
Colour is a leap of faith	Colour room: try a shade on a real photo, with honest limits	Confidence
Competitors stop at the chair	After-visit loop: aftercare, rebook reminder, review ask	Retention
Corporate campuses have no grooming option	Executive cut built for a lunch hour; membership proposal	Campus
Reviews are thin or generic	A steady review habit tied to named services and stylists	Reputation

INFERENCE Gaps are read from the competitor homepages and Google listings sampled in October 2026, not a full site-by-site teardown. Each is a hypothesis to test after launch.

02 • FROM ELSEWHERE

What other markets do well.

Two large, public examples of how booking and trust work in salons abroad. We take the principle, not the format.

JP Hot Pepper Beauty, Japan

VERIFIED Listings show menu, price, live vacancy, stylist profiles, photos, coupons and reviews on one page. Bookings sync into the salon's management system, with reminders such as the day before. The operator reports over 180 million online bookings a year across hair and beauty salons.

RECOMMENDATION Take: show stylist, price and open slots before the client commits. Send a day-before reminder.

KR NAVER Booking, South Korea

VERIFIED Salons configure services, stylists and slots; clients see deposit and cancellation terms before confirming. A request is not a confirmation until the salon accepts it. Detailed consultations and reference photos often move to direct messaging.

RECOMMENDATION Take: state cancellation terms up front, label a request as a request, and offer a photo-first consultation on WhatsApp.

WHERE WE DIFFER

Both are marketplaces. We are one brand with two salons, so the site carries the trust itself: stylist, standard, and the honest colour room.

03 · POSITIONING

Built for people who invest in themselves.

Not the cheapest chair in the area. The most considered one. **RECOMMENDATION**

The principal

Directors, founders, senior leads. Time is the scarce thing. Pays for a stylist who gets it right and a slot that respects the calendar.

PRESTIGE TECH FOREST · ARCADIA

The household host

Runs the family's calendar. Wants a salon close to home that handles everyone, and a stylist who remembers.

SOBHA ARCADIA

The occasion planner

A wedding, a launch, a milestone. Plans weeks ahead and pays for certainty.

BOTH

INFERENCE Personas are working hypotheses from the location audit, not research with real clients. Test them with the first 50 bookings.

03 · VISUAL LANGUAGE

Black, ivory, gold. Quiet and expensive.

Black
#09090A

Ivory
#F3EDE1

Champagne gold
#C9A862

Platinum, Tech Forest
#AEBBC8

Charcoal
#18181B

Hair, done properly.

Bodoni Moda for the voice. Inter for the work. Sentence case, short lines.

PHOTOGRAPHY

Black and white by default, colour on hover and where colour is the point. Real hair, hands, tools. No cartoons, no clip-art.

COPY

Short. Plain verbs. No "pamper", no "transform", no exclamation marks.

MOTION

One moment: the hero film. Everything else answers a tap.

03 · SITE

pages, one file, no cartoons.

68 licensed photographs. Dark and light themes.
Works at phone width. VERIFIED

SECTION	PAGES	WHAT IS ON IT
Home	1	Hero film, both salons, services, colour room, stylists, voices
Salons	2	Sobha Arcadia, Prestige Tech Forest
Services	13	Overview + 12 services
Colour	7	Colour room + 6 colour families
Stylists	8	Find your stylist + 7 archetypes
Occasions	10	Overview + 9 occasions
Find your look	1	Seven-question quiz
Voices	1	Sister-outlet numbers and sample wording
The standard, Visit, Aftercare	3	Promise, directions, after-visit care
Book	1	Seven-step booking prototype

03 · THE FIRST 30 SECONDS

The home page explains itself in five scenes.

A moving three-panel film runs behind the headline. A visitor sees what we do, in order, before reading a word. **CONCEPT**

01 · CONSULT

Twenty minutes of listening before a single cut.

TIMING

6.4 seconds a scene, 32 seconds a loop.
Crossfade with a slow push.

02 · CUT

Precision, planned around your face and your week.

03 · COLOUR

A shade chosen for you, and tested on you first.

04 · STYLE

Finished for the day you actually have.

05 · WALK OUT SURE

Hair that stops asking for your attention.

HONESTY

Stock footage now, labelled. A launch shoot replaces it with the real salons.

ACCESS

Respects reduced-motion. Phone shows the centre panel only.

03 · SERVICE EMPHASIS

Same menu. Different front window.

Sobha Arcadia

The neighbourhood, led by regulars and families.

RECOMMENDATION

- 1 Gentlemen's cut and beard
- 2 Family appointments
- 3 Colour and gloss
- 4 Wedding and function preparation
- 5 Restorative hair spa

Offer: a private consultation. Twenty minutes with a senior stylist before anything is decided.

Prestige Tech Forest

The working day, led by speed and sharpness.

RECOMMENDATION

- 1 The executive cut
- 2 Beard and grooming
- 3 Blow-dry and styling
- 4 Colour touch-up
- 5 Event-ready, same day

Offer: an executive membership proposal for the campus. Priority slots, one stylist, early and late hours.

03 · COLOUR ROOM

See it on real hair before you decide.

Pick a photo, a family, a shade and a technique. The colour follows the light and strands of the hair. Or add your own photo, which stays on the device. **CONCEPT**

Burgundy

Blonde, balayage

Burgundy

Blonde

HONEST LIMITS

- A preview, not a prediction.
- Dark hair needs lightening for light shades. The page says so.
- The stylist confirms what is possible at the consultation.
- Your photo never leaves your phone.

VERIFIED Built and tested: six sample photographs, six colour families, four techniques, before-and-after slider.

03 · FIND YOUR LOOK

Seven questions. One plan.

The quiz scores services against what the visitor says, then names the stylist archetype who does it best. Rule-based, no black box. **CONCEPT**

- 1 What are you getting ready for?
- 2 How long is your hair?
- 3 What would feel right?
- 4 How do you feel about colour?
- 5 How much upkeep suits you?
- 6 How long can you sit?
- 7 How should you feel after?

SEVEN STYLIST ARCHETYPES

The precision cutter	The colourist
The texture specialist	The grooming specialist
The occasion artist	The family stylist
The change-maker	

RECOMMENDATION Archetypes are not named people. At launch they map to the real team, with each stylist's own work, grade and specialty. We list no staff we do not know.

03 · BOOKING

Seven steps. One tap to the franchisor's system.

- | | | | | | | |
|-------|----------|---------|---------|--------------|--------------|---------|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| Salon | Occasion | Service | Stylist | Day and time | Your details | Confirm |

CONSTRAINT

INFERENCE The booking system is mandated by the franchisor. The site's booking is a front end that collects the choices, then hands them to that system. Whether it accepts a deep link, an embed or an API is an open question for week 1.

HANDOFF OPTIONS, BEST FIRST

1. Deep link with service, stylist and salon pre-selected.
2. Embedded widget on the Book page.
3. Franchisor API called from the site.
4. Fallback: WhatsApp request with the summary text.

WHAT THE PROTOTYPE SHOWS

- Choices carry across pages. Pick a colour, land on booking with it filled.
- A request is labelled a request, never a confirmation.
- Summary can be copied. Nothing is sent from the prototype.

EVERY OPTION GETS

UTM tags on the link, a GA4 event for each step, and a booking reference passed back for offline conversion import.

03 · AFTER THE VISIT

The visit is the middle of the story.

Six messages after the chair. Rule-based, sent from the franchisor’s system or WhatsApp Business once approved. **RECOMMENDATION**

- | | | |
|---|----------------|--|
| 1 | 2 HOURS | Thank you and the aftercare card |
| 2 | 2 DAYS | A check-in. Send a photo if anything feels off |
| 3 | 7 DAYS | Review request, for everyone |
| 4 | 4 TO 6 WEEKS | Rebooking window with the same stylist |
| 5 | BIRTHDAY MONTH | A small note. Offer is proposed, not decided |
| 6 | 90 DAYS QUIET | A win-back: what changed? |

INFERENCE WhatsApp marketing needs opt-in. Capture consent at booking. Under India’s DPDP Rules, the main duties on data fiduciaries start 13 May 2027, so build consent and deletion in now.

04 · GOOGLE PROFILE

Sobha Arcadia

Create fresh. The existing 3JGM+PM pin is a shopping-mall listing with 3.6 stars from 8 ratings. Claim or request an edit rather than duplicate.

Primary category: Hair salon. Add Barber shop if the dashboard allows.

Lead the photos with the interior and the stylists at work.

Appointment link: the franchisor booking page with UTM tags.

CONCEPT Mockup. No rating, hours or phone are shown because none exist yet.

04 · GOOGLE PROFILE

Prestige Tech Forest

Campus listing is 1.7 stars. Do not put campus reviews on our profile. Keep ours separate.

Add the tower or gate as a landmark in the description once confirmed.

Lunch-hour and early slots in the first post.

Check the address format with the franchisor so it matches the campus pin.

CONCEPT Mockup. No rating, hours or phone are shown because none exist yet.

04 · PROFILE PLAYBOOK

Ten rules for both profiles.

NAME	Exactly the franchise-approved name. No keywords added. Keyword-stuffed names risk suspension.	CATEGORIES	Primary: Hair salon. Secondary candidates: Barber shop, Beauty salon. Check the dashboard list.
SERVICES	All 12 services, with a one-line description each. Prices only when the franchisor confirms them.	PHOTOS	Interior, exterior, team, work. Real, taken in week 2. A new photo set every month.
POSTS	One a week: offer, stylist, occasion. Add a call-to-action button.	Q AND A	Seed with the site FAQs. Answer from the owner account.
REVIEWS	Ask every client. Reply in two days. No gating, no incentives.	LINKS	Website and Book link carry UTM tags: utm_source=google, utm_medium=organic, utm_campaign=gbp-arcadia or gbp-techforest.
VERIFICATION	Plan for video verification. Keep a signboard and an interior shot ready.	DUPLICATES	Search both pins for existing listings. Claim or merge instead of adding.

RECOMMENDATION Run the two profiles as separate businesses: different photos, posts, Q and A and review asks.

04 · KEYWORD TO PAGE MAP

One intent per page.

PAGE	TARGET THEME	INTENT	NOTES
/sobha-arcadia	Salon near Thanisandra, Hegde Nagar, Sobha City	Local	Page, GBP, citations
/prestige-tech-forest	Salon near Prestige Tech Forest, Varthur, Whitefield	Local	Page, GBP, citations
/service-men	Men’s haircut and beard, per area	Transactional	Both location pages link here
/service-express	Executive cut, lunch-hour haircut	Transactional	Tech Forest first
/service-balayage	Balayage, highlights Bengaluru	Commercial	Colour room link
/service-smooth	Hair smoothening and keratin Bengaluru	Commercial	Cost and time answered on the page
/service-bridal	Bridal hair and makeup trial, per area	Commercial	Occasion pages
/colour-room	Hair colour ideas, try hair colour on photo	Informational	Top of funnel, own photo tool
/occasion-*	Hairstyle for wedding, interview, date	Informational	Nine pages
/aftercare	How to care for coloured or smoothened hair	Informational	Retention and E-E-A-T
Brand	TONI&GUY Thanisandra, TONI&GUY Varthur	Navigational	Own the brand terms per outlet

INFERENCE Search volumes are not shown. The Ahrefs connection available on 10 Oct 2026 did not include keyword data. Pull Google Keyword Planner volumes at kickoff, then reorder the build by volume and local intent.

04 · SCHEMA, NAP, CITATIONS

Say the same thing everywhere.

	SOBHA ARCADIA	PRESTIGE TECH FOREST
Name	TONI&GUY Sobha Arcadia	TONI&GUY Prestige Tech Forest
Address	Shop 4B, Devin Paradise Enclave, Thanisandra Main Road, Bengaluru 560064	Unit 4, Lake Road, ITI Colony, Varthur, Bengaluru 560087
Plus code	3JGM+PM	WPXW+R7
Phone	to add	to add
Hours	to add	to add

VERIFIED Addresses as supplied. Plus codes from the Google listing for Arcadia and our pin check for Tech Forest.

CITATIONS, IN ORDER

Google Business Profile · Bing Places · Apple Business Connect · the brand’s own store locator · Justdial · Sulekha · Facebook · Instagram. Only list where the franchisor allows.

ON-PAGE SCHEMA, ALREADY IN THE SITE

```
{
  "@type": "HairSalon",
  "name": "TONI&GUY Sobha Arcadia",
  "address": {
    "streetAddress": "Shop 4B, Devin Paradise Enclave, Thanisandra Main Road",
    "addressLocality": "Bengaluru",
    "postalCode": "560064"
  },
  "geo": { "latitude": 13.0771852, "longitude": 77.6340648 }
}
```

RECOMMENDATION Add telephone, openingHours, priceRange and sameAs links to the GBP and social profiles at launch. One block per salon, never a combined one.

04 · AI, ONLY WHERE IT EARNS ITS PLACE

Eight ideas. Three make the cut.

IDEA	CUSTOMER VALUE	VERDICT	WHY
Colour preview on real photos	Sees a shade on hair like theirs	Yes, built	Runs in the browser. Photo stays on the device.
Stylist and service matching	Gets to the right plan quickly	Yes, built	Rule-based, no AI model needed.
Rebooking reminders	Reminded at the right moment	Yes	Rule-based, from the franchisor system.
Drafting review replies	Faster, kinder replies	Assist	A person edits and sends every reply.
Caption and carousel drafts	Consistent content	Assist	Human edit. No generated faces.
WhatsApp FAQ assistant	Instant answers out of hours	Later	Needs franchisor approval and an opt-in flow.
AI-generated hairstyle photos	None. Misleading	No	Shows results we may not deliver.
Face-scan virtual try-on	Unclear. Biometric risk	No	Privacy and accuracy risk. Not worth it.

RECOMMENDATION

 If the customer gets nothing from it, it is not in the product.

05 · VISUAL SYSTEM

Twenty assets, one look.

1. Hero film, 5 scenes

2. Arcadia profile cover

3. Tech Forest profile cover

4. Instagram carousel: stylist

5. Instagram carousel: colour

6. Reel cover frame

7. Aftercare card

8. Stylist card

9. Colour family card

10. Occasion poster

11. Campus lunch-hour flyer

12. Society notice poster

13. Mirror QR for reviews

14. Table card QR

15. Gift voucher

16. Google Ads image set

17. Meta ad set

18. Email header

19. Opening-day invite

20. Before and after template

RECOMMENDATION Templates in black, ivory and gold. Stock photos labelled and swapped for the launch shoot. Before and after posts only with the client's written consent.

05 · 90-DAY CONTENT PLAN

A steady rhythm, not a burst.

WEEKS 1 TO 4

Before the doors open

Teaser film. Who the stylists are. Why a consultation first. Neighbourhood posts. Sign-ups for opening week.

WEEKS 5 TO 8

Opening

Opening film. Walk-in days. First reviews asked at the chair. Colour room push. Occasion posts.

WEEKS 9 TO 13

Settling in

Rebooking. Stylist stories. Real before and afters with consent. Campus membership at Tech Forest.

WEEKLY RHYTHM, PER SALON

DAY	FORMAT	THEME
Monday	Photo post	A stylist and what they do best
Wednesday	Carousel	Colour or care: one thing explained
Friday	Story and GBP post	An occasion: what to book and when
Sunday	Reel	A finished look. Real client, with consent

05 · CALENDAR

Thirteen weeks, two salons.

WEEK	SOBHA ARCADIA	PRESTIGE TECH FOREST
W1	Teaser: the first twenty minutes	Teaser: the first twenty minutes
W2	The stylists	The executive cut
W3	Consultation explained	Lunch-hour cuts
W4	Opening week invite	Opening week invite
W5	Opening day	Opening day
W6	Family appointments	Beard and grooming
W7	Colour room	Colour room
W8	Function season	Event-ready, same day
W9	Aftercare	Aftercare
W10	Rebooking	Campus membership
W11	Real results, with consent	Real results, with consent
W12	Balayage week	Blow-dry week
W13	Review and plan	Review and plan

06 · MEASUREMENT

Count the booking, not the click.

STACK

GOOGLE ANALYTICS 4	Events and conversions, two data streams by salon
GOOGLE TAG MANAGER	One container, consent-aware tags
SEARCH CONSOLE	Queries and pages by salon
GOOGLE ADS	Conversions imported from GA4, then offline bookings
META PIXEL AND CONVERSIONS API	Booking requests, server side
MICROSOFT CLARITY	Heatmaps on booking and colour room
LOOKER STUDIO	One dashboard, salon switch

EVENTS

view_location	Location page viewed
click_directions	Directions tapped
click_call / click_whatsapp	Call or WhatsApp tapped
booking_step_1..7	Each booking step
booking_request	Request submitted, with salon, service, stylist
tryon_use	Colour room used
quiz_complete	Find your look finished

RECOMMENDATION

 Every link carries UTM tags by salon. The booking reference returns from the franchisor system so Google Ads can learn from real visits. Consent first, under DPDP.

05 · PAID LAUNCH

Start narrow. Learn fast.

No budget is fixed here. It comes from the franchisor and the owner. The split below is a starting point once it is set. **RECOMMENDATION**

RULES

- One campaign per salon. Never pooled.
- Run radius ads only after the profiles are live.
- Scale a channel only after two weeks of booking data.
- Pause anything that cannot show a booking request.

STARTING SPLIT OF THE BUDGET

Google Search, local. People already searching near each site. Call and booking requests.

Meta, 3 km radius. Opening film and the consultation offer, to people near each salon.

Remarketing. Visitors to the booking page and colour room.

Test reserve. Campus lunch-hour offer, society partnerships, new creative.

05 · THE ARITHMETIC

What a first visit costs.

Cost per first visit equals cost per booking request divided by the share who turn up. Change either and it moves. **CONCEPT**

These figures are illustrations to size decisions, not forecasts or benchmarks. Replace them with real numbers after four weeks.

COST PER REQUEST	40% TURN UP	55% TURN UP	70% TURN UP
₹150	₹375	₹273	₹214
₹250	₹625	₹455	₹357
₹400	₹1000	₹727	₹571
₹600	₹1500	₹1091	₹857

RECOMMENDATION Decide the ceiling first: the most you can pay for a first visit given a typical service value and how often clients return. The franchisor and owner hold that number.

06 · 90-DAY ROADMAP

Thirteen weeks, in order.

RECOMMENDATION Dates depend on the opening date, which we do not have. Week 1 is the week the franchisor answers.

06 · KPIS

Six numbers, reviewed on a fixed rhythm.

LAYER	MEASURE	CADENCE	SOURCE
Profile	Calls, direction requests, booking clicks	Weekly	Google profile insights
Site	Booking requests, step drop-off, colour room use	Weekly	GA4, Clarity
Reputation	New reviews a week (aim 4), average rating, reply time	Weekly	Google profile
Revenue	First visits, rebooking rate, service mix	Monthly	Franchisor system
Paid	Cost per request, cost per first visit	Weekly	Ads, GA4
Brand	Branded searches for each outlet name	Monthly	Search Console

INFERENCE Targets are set after a four-week baseline. Setting them now would be invention. The one fixed figure is reviews: about four a week.

06 · PERFORMANCE AND ACCESS

Fast, readable, usable.

IMAGES	WebP, sized per breakpoint, lazy load below the fold. AVIF where the build allows.
HERO FILM	Optimised video or the image reel. Poster first, nothing blocks.
MOTION	Respect reduced motion. No auto-play audio.
KEYBOARD	Visible focus on everything. Sheet menu and quiz are fully keyboard-operable.
PRIVACY	Own photo never uploaded. Consent before tracking.

CORE WEB VITALS	Aim for good on all three. Check in the field after launch.
FONTS	Two families, preloaded, with fallbacks.
CONTRAST	Text and buttons meet WCAG AA in both themes.
TOUCH	Targets 44 px or larger. Floating Reserve bar on phones.

VERIFIED

 The prototype is one 4 MB file because photos are embedded. The production site serves them as separate, cached files.

06 · RISKS

Seven risks, and what we do.

RISK	LEVEL	WHY	RESPONSE
Territory	High	Existing outlets 0.85 to 2.0 km away	Written answer from the franchisor in week 1
Booking handoff	High	Franchisor system may not allow a deep link	Test options in week 1; WhatsApp fallback
Campus footfall	Medium	Occupancy unclear, listing 1.7 stars	Test lunch-hour offers, do not budget on headcount
Review pace	Medium	Zero reviews at launch	Ask every client from day one
Photography	Medium	Stock stands in	Launch shoot in week 2
Profile suspension	Medium	Name or category mistakes	Approved name only; video verification ready
Privacy	Medium	DPDP duties from 13 May 2027	Consent at booking, deletion process

DPDP phasing: Mondaq summary of the DPDP Rules 2025.

06 · FIRST TEN DAYS

Start Monday.

- | | |
|--------|---|
| DAY 1 | Send the franchisor the territory and booking questions. |
| DAY 2 | Search both pins for existing profiles. Plan claim or create. |
| DAY 3 | Confirm hours, phone, price list, approved name. |
| DAY 4 | Book the photo and film shoot. |
| DAY 5 | Create or claim both Google profiles. Start verification. |
| DAY 6 | Set up GA4, GTM and Search Console per salon. |
| DAY 7 | Connect the booking handoff. Test end to end. |
| DAY 8 | Replace stock photos with shoot selects. |
| DAY 9 | Pull keyword volumes. Reorder the build. |
| DAY 10 | Soft launch the site. Review checklist. |

OPEN QUESTIONS

1. Is there exclusive territory for either site?
2. Which booking system, and what link or API does it allow?
3. Who owns each Google profile?
4. Opening date, hours, phone, price list?
5. Parking at both sites?
6. Is the Prestige Tech Forest campus open and occupied?
7. Can we use the brand's own photography and film?

INFERENCE Until these are answered, the plan holds, but spend and dates do not.

SOURCES

Where the facts came from.

SOURCE	USED FOR
Google Maps, sample of 57 salon listings near both sites, 10 Oct 2026	Ratings, review counts, booking links, distances

Not verified: any real testimonials, staff, prices, hours, phone numbers or opening dates. They do not exist in our sources yet.

Hair, done properly.

Two salons. Two neighbourhoods. One standard.
